**3.80 ( b ) ( 2 ) ( iv )  
PRIMARY ENCLOSURES.**

Section 3.80(b)(2)(iv) Minimum space requirements: When more than one nonhuman primate is housed in a primary enclosure, the minimum space requirement for the enclosure is the sum of the minimum floor area space required for each individual nonhuman primate in the table in paragraph (b)(2)(i) of this section: each nonhuman primate weighing 1-3 kg. requires at least 3 sq. ft. of floor space.

Nonhuman primates weighing 1-3 kg. were housed in pairs in enclosures that provided 4.3 sq. ft.: room A2 (3 pairs), room D1 (4 pairs), room D3 (4 pairs), room D4 (10 pairs) and in enclosures that provided 3 sq. ft. of floor space: room D4 (3 pairs). These size nonhuman primates in room D3 were also housed in groups of three in one enclosure that provided 6 sq. ft. of floor space and in one enclosure that provided 4.3 sq. ft. of floor space. Nonhuman primates weighing 1-3 kg housed in pairs require an enclosure that provides at least 6 sq. ft. of floor space and housed in threes require an enclosure that provides at least 9 sq. ft. of floor space. Animals must be provided with at least their minimum required floor space to maintain their health and well-being.

Rooms D3 and D4 were corrected during the inspection.  
Correct room A2 by June 1, 2005.  
Correct room D1 after quarantine is completed.

**3.81  
ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.**

Section 3.81 Environment enhancement: Dealers must develop, document and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of nonhuman primates.

The facility's plan for environment enhancement states that individually housed nonhuman primates not housed across from each other will have a mirror on the opposite wall. In room A3 there is one wall of enclosures facing a wall with no mirrors. There was one nonhuman primate housed in an enclosure with no partner and no mirror across from its enclosure. The facility must follow its primate plan for environment enhancement.  
Correct by May 25, 2005.
